

Classworks (Mathematics)

Elementary School

Classworks has moderate evidence of effectiveness for elementary school mathematics. The two qualifying studies included in the review showed an effect size of +0.85 and +0.21.

Middle/High School

Classworks has not been assessed at the middle/high school level.

About Classworks

Classworks, designed by Curriculum Advantage, is a comprehensive computer learning system. It consists of over 4,000 units of instruction at the skill level, 265 titles, and over 17,000 activities. Classworks provides comprehensive curriculum materials, as well as the tools that let teachers and administrators manage, assess, and individualize their students' learning process.
