

## **Project SEED (Mathematics)**

### **Elementary School**

Project SEED has moderate evidence of effectiveness for elementary school mathematics. The two qualifying studies included in this review showed effect sizes of +0.73 and +0.25.

### **Middle/High School**

Project SEED is not designed for middle/high school mathematics.

### **About Project SEED**

Project SEED is a supplementary mathematics program in which university mathematicians and scientists teach elementary students high-level mathematics concepts.
